

Helios Cloud — Policies & Service Guide (sample document for RAG course)

Helios Cloud is a fictional company invented for this course. It sells Helios Compute (virtual servers), Helios Store (object storage), and Helios Pipe (a managed data pipeline). Everything below is made up for teaching.

Free Trial

Every new account includes a 14-day free trial of Helios Compute with up to 2 virtual servers. No credit card is required to start the trial. When the trial ends the account pauses until a payment method is added, and trial data is retained for 30 days after the trial ends.

Refund Policy

Customers may request a full refund within 30 days of their first paid invoice. Refunds are issued to the original payment method within 10 business days. After 30 days only prorated credits are offered, applied to the next billing cycle. Refunds never apply to one-time professional services fees.

Support Tiers

Basic support is free and answers within two business days by email. Standard support costs 99 dollars per month and answers within four business hours. Premium support costs 499 dollars per month, answers within one hour, and includes a dedicated technical account manager and a private phone line.

Service Level Agreement (SLA)

Helios Compute guarantees 99.9 percent monthly uptime. If uptime falls between 99.0 and 99.9 percent the customer receives a 10 percent service credit. If uptime falls below 99.0 percent the credit is 25 percent. Service credits must be requested within 30 days of the incident.

Data Regions & Residency

Helios Store data can be hosted in North America, Europe, or Asia Pacific. Data does not leave the selected region. Premium customers may request a custom data residency arrangement.

Security

All data is encrypted at rest with AES-256 and in transit with TLS 1.3. Helios is SOC 2 Type II certified. Customers can enable two-factor authentication and SAML single sign-on. Access logs are retained for 12 months.

Billing

Invoices are issued monthly on the first day of the month and payment is due within 15 days. Accounts more than 30 days overdue are suspended. Annual prepayment receives a 15 percent discount.

Account Cancellation

Customers may cancel anytime from the dashboard. Cancellation stops future billing but does not refund the current period unless the 30-day refund policy applies. After cancellation, data is retained for 30 days and then permanently deleted.
